-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 3-13, 15 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. The preamble of claim 1 describes a cartridge case an ammunition round while the body of the claim goes on to describe parts of a firearm in combination with a cartridge case and ammunition round. The claims should be amended so that the scope of the claims is clear.
4. Regarding claim 1, it is not known what is meant or encompassed by the phrase "is dielectric for the electric insulation of the cartridge case (2) *in relation to the barrel (14) and also to the rest of the ammunition round*".
5. Regarding claim 5, the term "preferably" makes the claim indefinite.
6. With respect to claim 13, it is not known what is meant or encompassed by the phrase "arranged tightly".

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by any and all of US 3749021 issued to Burgess, US 2564695 issued to Johnson, US 4614157 issued to Grelle and US 4187271 issued to Rolston.

***Claim Rejections - 35 USC § 103***

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claims 1, 3-13, 15 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over any one of applicant's admission, US 6397508 issued to Constant, US 6360469 issued to Mikuta, and US 5301448 issued to Petrick in view of Burgess. The primary references each disclose electrically fired weapons having chambers for firing ammunition. Burgess discloses an ammunition cartridge comprising a cartridge case for receipt of an ammunition round. These rounds inherently are to be used in the firing chambers of weapons. The rounds include alternating layers of plastic and metal coatings. At the time of the invention, one having ordinary skill in the art would have found it obvious to provide the rounds of the primary references with the rounds as disclosed by Burgess. The suggestion/motivation for doing so would have been to make a lighter but reinforced round.

***Response to Arguments***

11. Applicant's arguments with respect to claim 1 has been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
